YOUSIF ALQUNFUZI

SOC Analyst | GRC Analyst | Cybersecurity

+966 (050)-466-9903 | yousifalqunfuzi@gmail.com | linkedin.com/in/yousif-alqunfuzi | *Saudi National*

PROFESSIONAL SUMMARY

Cybersecurity graduate with a Minor in Forensic Sciences. (ISC2 Certified in Cybersecurity — CC) with hands-on experience in SOC operations, SIEM and IDS monitoring, incident response, log analysis, threat detection, and compliance support. Skilled in vulnerability assessment, risk management, and security auditing aligned with ISO 27001, NIST, and MITRE ATT&CK, in addition to familiarity with NCA Essential Cybersecurity Controls (ECC), SAMA Cybersecurity Framework, and PDPL. Seeking an entry-level SOC Analyst to strengthen my skills and develop new strategies in identifying and responding to threats, as well as support organizational compliance.

PROFESSIONAL EXPERIENCE

Network Security Operations & System Administrator **Jan 2025 – May 2026**
Purdue IT, Indiana, USA

- Supported Purdue University's successful ISO 27001 certification by conducting documentation reviews, compliance verification, and process alignment across IT operations.
- Monitored and secured network infrastructure across 160 buildings, using Wireshark for traffic analysis and troubleshooting VLANs, DHCP/DNS, and switch configurations to identify and resolve connectivity and security issues.
- Led a telecommunications room standardization project spanning 1,000+ rooms, managing six interns and developing documentation that improved ticket efficiency by 13%.
- Configured and deployed 300+ PoE phones, Cisco devices, and Dell networking equipment, maintaining reliable, secure communication services across departments with minimal downtime.

EDUCATION

Bachelor of Computer and Information Systems Security (Cybersecurity) **May 2026**
Purdue University West Lafayette — Polytechnic Institute | Minor: Forensic Sciences

TECHNICAL PROJECTS

CNIT 470 — Security Operations & Threat Detection Environment

- Built and operated a layered security monitoring environment using Suricata (NIDS), Wazuh (SIEM), Velociraptor (EDR), and OpenCanary, then conducted incident response investigations across five attack scenarios - analyzing logs, reconstructing attack timelines, mapping activity to MITRE ATT&CK, and documenting findings using IR playbooks.

CNIT 455 — Simulated Enterprise Firewall Environment

- Built a simulated enterprise network with four segmented VLANs across eight VMs and firewalls (PfSense, VyOS), applying defense-in-depth principles and secure configuration baselines, then conducted penetration testing to validate firewall and security controls.

CNIT 512 — Physical Security & Access Control Assessment

- Led an authorized physical security risk assessment of a professional sports venue, uncovering four distinct access control gaps in restricted and employee-only areas, then delivered a formal risk assessment report.

SKILLS

Security Tools: Wazuh (SIEM), Suricata (NIDS), Velociraptor (EDR), Wireshark, Nmap, pfSense, VyOS, Metasploit, VMware
Frameworks & Standards: ISO 27001, NIST, MITRE ATT&CK
Core Competencies: SIEM & Log Analysis, Incident Response,, Risk Management, Security Auditing, Firewall Configuration, Network Security, Access Control
Technical Skills: Linux, Windows Active Directory, Python, VLANs, DHCP/DNS

CERTIFICATIONS & ADDITIONAL INFORMATION

- ISC2 Certified in Cybersecurity (*CC*) | Google Cybersecurity Professional Certificate | CompTIA Security + (in progress) | Lean Six Sigma — *LinkedIn Learning*
- Languages : Arabic (Native) & English (Fluent)
